**DETAILED ACTION**

***Status Of Claims***

1. This Office Action is in response to an amendment received 7/15/2010 in which Applicant lists claims 2, 4-9 and 11 as being original, claims 3 and 12 as being previously presented, and claims 1 and 10 as being currently amended. It is interpreted by the examiner that claims 1-12 are pending.

***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/15/2010 has been entered.

***Allowable Subject Matter***

3. Claims 1-12 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest a method for producing a polarizing film wherein the plurality of films are in a stacked arrangement without touching throughout the method for producing the polarizing film, wherein the plurality of rolled raw films are in a stacked arrangement without touching throughout the method for producing the polarizing film, and wherein the films are simultaneously dipped into at

least one type of processing liquid, as generally set forth in claim 1, the method including the particular limitations recited in the remainder of claim 1. Claims 2-9 and 12 depend from claim 1 and therefore are allowable for at least the same reasons as claim 1.

Claim 10 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest an apparatus for producing a polarizing film wherein the plurality of films are in a stacked arrangement without touching throughout the apparatus for producing the polarizing film, wherein the plurality of rolled raw films are in a stacked arrangement without touching throughout the apparatus for producing the polarizing film, and wherein the films are simultaneously dipped into the processing liquid without contacting each other, as generally set forth in claim 10, the device including the particular limitations recited in the remainder of claim 10. Claim 11 depends from claim 10 and therefore is allowable for at least the same reasons as claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Response to Arguments***

5. Applicant's arguments, see pages 5-7, filed 7/15/2010, with respect to the rejections of the claim, have been fully considered and are persuasive. The rejections of the claims have been withdrawn.
